APPLICATION

COMES NOW Applicant and shows the Honorable Corporation Commission as follows:

1. Parties: Applicant, Continental Resources, Inc., P.O. Box 269091, Oklahoma City, OK 73126, is the owner of oil and gas leasehold interests within the lands described in the caption hereof. The Respondents to this Application are shown on the Exhibit "A" attached hereto.

2. Allegation of Facts:

a. By Order No. 580767, this Commission established 640-acre drilling and spacing units for the Sycamore and Woodford common sources of supply underlying Section 29, Township 1 South, Range 2 West, Carter County, Oklahoma.

b. The well pattern and density prescribed by said Order are not adequate when taking into consideration the changed conditions which now prevail as compared to conditions known when such well pattern and density were first ordered. It is now necessary to drill one additional well as to the Sycamore common source of supply, and one additional well as to the Woodford common source of supply, on said unit in order to effectuate the maximum recovery of hydrocarbons from said common sources of supply. In order to prevent waste and protect the correlative rights of the parties in the reservoir, Applicant should be allowed to drill the additional wells on said unit.

c. There are well(s) producing from the Sycamore and Woodford common sources of supply located on the above described land.

d. The additional wells requested by Applicant are necessary to effectively and efficiently drain a portion of the common sources of supply (reservoir) covered by the drilling and spacing unit established by said Order which cannot be effectively and efficiently drained by any existing well within said drilling and spacing unit.

3. Legal Authority: Title 52, Section 87.1, O.S.

WHEREFORE, Applicant prays that after notice and hearing as required by law, the Order amending said Order authorizing the additional wells on the above-described unit be issued.

Respectfully submitted,
